

PACIFIC MPS SOLUTIONS

PACIFIC SUSTAINABLE ADVENTUROUS

GBP Strategy Sheet

AS AT 31 MAR 2025

OVERVIEW

Investment objective

The Sustainable Adventurous Growth Portfolio aims to achieve capital growth using sustainable investments, with a bias towards equity market exposure.

Suitability

Designed for investors who seek capital growth over not less than 5 years through investment in a diversified range of ethically screened assets and are prepared to accept the prospect of some short-term capital losses to achieve a high return.

Inception date

17 Jun 2016

Asset allocation profile

The portfolio can invest across all asset classes using passive instruments, but it is limited to a maximum equity weighting of 100%.

Risk profile

The portfolio adopts a higher approach to risk and it is anticipated its volatility will not exceed 100% of global market equity volatility.

Benchmarks and Return Objective

ARC Steady Growth

HOW DO WE IDENTIFY SUSTAINABLE INVESTMENTS?

Alongside the team's rigorous process to select and identify key attributes including performance and risk management, they use two globally recognised frameworks to assess the sustainability credentials of the underlying investments.

GLOBAL SUSTAINABLE INVESTMENT ALLIANCE

The GSIA is globally recognised framework which classifies the universe of sustainable products against a range of sustainable targets. This allows the team to define the nature of our sustainable implementation in the following formats and calculate the percentage of the portfolio covered by a sustainable target.

SUSTAINABLE THEMES

NEGATIVE SCREENING

The exclusion of sectors, companies or practices based on specific criteria.

POSITIVE SCREENING

Investments selected for positive ESG performance relative to peers.

STEWARDSHIP & VOTING

Investment in themes related to sustainability issues.

SUSTAINABLE THEMES

Use of shareholder power to influence corporate behaviour.

IMPACT INVESTING

Investment with the intention to generate social and environmental impact.

ESG INTEGRATION

The explicit inclusion of ESG factors into financial analysis.

NORMS-BASED SCREENING

Screening of investments against minimum standards of business practice.

UN SUSTAINABLE DEVELOPMENT GOALS

The UN Sustainable Development Goals are a collection of 17 interlinked goals designed to be a blueprint to achieve a better and more sustainable future for all. We map our portfolios to real world change which is vital to the future for a peaceful, more equitable world.

Important Information

Past performance is not necessarily a guide to future performance. Performance is shown net of fees. Figures quoted on a bid-to-bid basis in Sterling with income reinvested. The value of your investments and the income derived from them can go down as well as up and may be affected by exchange rate fluctuations. You may not get back the original amount you invested. Investors actual returns may differ from the quoted performance data.

WHAT DOES SUSTAINABLE INVESTING MEAN TO PAM?

Sustainable investing is a catch-all term for investing in a way that accounts for being socially responsible and investing ethically while also seeking returns.

At PAM we use the term sustainable investing to capture the various methods of incorporating concerns around Environmental, Social and Governance (ESG) issues into our investment decision making processes.

A commitment to responsible investing

As a signatory to the UN PRI Principles for Responsible Investment, Pacific Asset Management has publicly stated our support for the better understanding of the investment implications of ESG factors.

As a business we are committed to constantly strive to be a more responsible firm both in how we operate and how we manage our clients' investments.
