What is this product?

Type
UCITS

Term

The Company is an open-ended fund with no specified maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The PRIIPs Manufacturer, Waystone Management Company (IE) Limited, is not entitled to terminate the product unilaterally.

Objectives

The investment objective of the Product is to achieve a return in excess of global corporate bond markets by investing primarily in global investment grade corporate debt securities and government or sovereign bonds, using derivatives ("FDI") where appropriate. The Product will invest in bonds, fixed income instruments, and other debt instruments, including government bonds, local authority bonds, municipal bonds, covered bonds and bonds issued by government-sponsored enterprises and public international authorities. The Product may also invest in corporate bonds. The Product is actively managed and does not intend to track any benchmark nor is it constrained by any index. For comparison purposes, the relevant share class will be measured against the Bloomberg Global Aggregate Corporate USD Hedged Index. The Product may invest in contingent convertible bonds ("CoCos"), hybrid securities, convertible bonds, preference shares and convertible preference shares. The aggregate exposure to CoCos will not exceed 20% of NAV. The Product's investment strategy may involve using repurchase agreements, reverse-repurchase agreements and securities lending transactions. The Product may invest in asset-backed securities ("ABS") and mortgage-backed securities ("MBS"). It is not expected that aggregate exposure to ABS will exceed 10% of NAV or MBS exposure will exceed 30% of NAV. The Product employs active asset-allocation between cash and debt securities and may invest 100% in cash, cash equivalents and money market funds as a defensive measure. The Product can invest in equity derivatives for hedging purposes. It may also hold equities where a bond position, convertible bond, CoCo or other hybrid security converts into an equity holding as a result of a restructuring or in accordance with its terms of the relevant security. The Product may invest up to 10% of NAV in collective investment schemes, including ETFs where such investment provides efficient or cost-effective exposure. The Product may use FDI for efficient portfolio management. The use of FDI can result in increased leverage and the Product envisages employing leverage of between 200% and 700% of

NAV. The Product uses a rigorous "bottom-up" process and seeks to identify bonds which offer a higher credit spread than the management team believe to be commensurate with the risk attached to the position. To ensure that returns are driven by this selection process and not by general market factors, the Product will use FDI to adjust its overall duration to that prevailing within the global investment grade corporate bond market. The Product is not constrained geographically and will focus primarily on developed markets and liquid, investment grade credit but may invest in other jurisdictions. The Product may invest in sub-investment grade bonds which will not exceed 15% of NAV. The Base Currency of the Product is USD. This Class is denominated in USD. Non-Base Currency Share Classes are hedged. Income from investments in the Product is not distributed but will be retained in the Product. An investment in the Product is designed to be a medium to long-term investment of typically 5 years therefore investors should not expect to obtain short-term gains from such investment. The Product is suitable for investors who can afford to set aside the capital for the investment cycle and who seek a medium investment risk.

Intended Retail Investor

This Product is intended for investors who understand the degree of risk, who can tolerate a medium to low level of volatility and who are able to bear any losses (which may equal the whole amount invested) that may result from an investment in the Product. The Product is designed to form part of a portfolio of investments. This Product is intended for institutional investors and for retail investors, who have received advice from a professional investment manager or investment adviser.

Important Information

- The Company is an investment company with variable capital incorporated in Ireland with registered number 553111 and established as an umbrella fund with segregated liability between sub-funds.
- The Company's Depository is Citi Depository Services Ireland Designated Activity Company.
- Further information about the Company, the Product and the different classes of shares (including a copy of the current Prospectus, the Supplement and most recent Report and Financial Statements) are available online at www.pacificam.co.uk.
- Investors may switch shares in the Product for shares in other sub-funds of Pacific Capital UCITS Funds plc provided that they satisfy the criteria applicable to investments in the other sub-fund(s). Further information on switching is contained in the Prospectus and the Supplement.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Due to effects of unusual market conditions, other risks could be triggered, refer to "Risk Considerations" in the Prospectus and Supplement.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the proxy between September 2024 and December 2025.

The moderate scenario occurred for an investment in the proxy between August 2018 and August 2023.

The favourable scenario occurred for an investment in the proxy between December 2015 and December 2020.

Recommended holding period: 5 years.

Example Investment: GBP 10,000.

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	8,150 GBP	7,530 GBP
	Average return each year	-18.48 %	-5.52 %
Unfavourable	What you might get back after costs	8,300 GBP	10,600 GBP
	Average return each year	-16.97 %	1.17 %
Moderate	What you might get back after costs	10,700 GBP	11,880 GBP
	Average return each year	7.03 %	3.50 %
Favourable	What you might get back after costs	11,580 GBP	15,660 GBP
	Average return each year	15.80 %	9.39 %

What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company has no obligation to pay out since the Company design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Company default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	67 GBP	403 GBP
Annual cost impact (*)	0.7%	0.7% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.2% before costs and 3.5% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0% of the amount you pay in when entering this investment	0 GBP
Exit costs	We do not charge an exit fee for this Product.	0 GBP
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	0.3% of the value of your investment per year. This is an estimate based on actual costs over the last year.	25 GBP
Transaction costs	0.4% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	42 GBP
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 GBP

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This Product should be considered a medium to long term investment. This means at least 5 years or more. You can sell your shares in the product on any Dealing Day as defined in the Prospectus, by using one of the methods described in the Prospectus. No exit fees will be charged. Please refer to the 'Composition of Costs' table for more information.

How can I complain?

You can send your complaint to the Management Company at 35 Shelbourne Rd, Ballsbridge, IE - Dublin, D04 A4E0, Ireland or by e-mail to complianceeurope@waystone.com.

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
