Pacific Capital Partners Limited is authorised in England and regulated by the Financial Conduct Authority (FCA).

This Key Information Document is accurate as at 01 January 2023.

What is this product?

Type

UCITS

Term

The Company is an open-ended Product with no specified maturity date.

Objectives

The Product's investment objective is to provide capital growth over the long term whilst attempting to limit the risk of capital loss. The Product is considered to be actively managed, which means that the Investment Manager is not constrained by any index or benchmark in the selection of investments. The Investment Manager has discretion in managing the investments of the Product. The Product invests principally in regulated underlying funds, including open-ended exchange traded funds and index tracker funds. The Product may also invest directly in certain securities, including fixed income instruments, equities, money market instruments, certificates and closed-ended funds where the Investment Manager believes such direct investment to be more efficient. The Investment Manager may also seek to pursue a factor based investment strategy to isolate and take exposure to particular factors (value, momentum, carry or size) which drive risk and return within a given asset class or market. The Product is a multi-asset fund and may obtain exposure to a broad range of asset classes through its investment in underlying funds, direct securities and derivatives, including equity markets, fixed income, money markets, indices and currencies. Exposure to equity markets will range between 20% to 60% of Net Asset Value. The Product may use exchange traded and OTC derivatives with the aim of risk or cost reduction or to generate additional capital or income in line with the Product's risk profile. The Product may also make

extensive use of derivatives including more complex instruments or strategies to achieve the investment objective and these may result in leverage. In such situations performance may rise or fall more than it would have done otherwise, reflecting such additional exposure. Income from the Product's investments will be reinvested in the Product.

Intended Retail Investor

This Product is intended for investors who understand the degree of risk, who can tolerate a medium level of volatility and who are able to bear any losses (which may equal the whole amount invested) that may result from an investment in the Product. The Product is designed to form part of a portfolio of investments.

Important Information

- The Company is an investment company with variable capital incorporated in Ireland with registered number 553111 and established as an umbrella fund with segregated liability between sub-funds.
- The Company's Depository is Citi Depository Services Ireland Designated Activity Company.
- Further information about the Company, the Product and the different classes of shares (including a copy of the current Prospectus, the Supplement and most recent Report and Financial Statements) are available online at www.pacificam.co.uk.
- Investors may switch shares in the Product for shares in other sub-funds of Pacific Capital UCITS Funds plc provided that they satisfy the criteria applicable to investments in the other sub-fund(s). Further information on switching is contained in the Prospectus and the Supplement.

What are the risks and what could I get in return?

Risk Indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact the capacity of the PRIIPs manufacturer to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

Due to effects of unusual market conditions, other risks could be triggered, refer to "Risk Considerations" in the Prospectus and Supplement.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the benchmark between August 2021 and October 2022.

The moderate scenario occurred for an investment in the benchmark between February 2016 and February 2021.

The favourable scenario occurred for an investment in the benchmark between October 2012 and October 2017.

Recommended holding period: 5 years.

Example Investment: USD 10,000.

Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress	What you might get back after costs	6,070 USD	6,300 USD
	Average return each year	-39.32 %	-8.84 %
Unfavourable	What you might get back after costs	9,340 USD	9,350 USD
	Average return each year	-6.62 %	-1.34 %
Moderate	What you might get back after costs	10,360 USD	12,680 USD
	Average return each year	3.64 %	4.86 %
Favourable	What you might get back after costs	11,890 USD	14,870 USD
	Average return each year	18.87 %	8.25 %

What happens if Pacific Capital Partners Limited is unable to pay out?

You may face a financial loss should the Manufacturer or Depository default on their obligations. There is no compensation or guarantee scheme in place which may offset, all or any of this loss.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	139 USD	906 USD
Annual cost impact (*)	1.4%	1.5% each year

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 6.3% before costs and 4.9% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0% of the amount you pay in when entering this investment	0 USD
Exit costs	We do not charge an exit fee for this Product.	0 USD
Ongoing costs [taken each year]		
Management fees and other administrative or operating costs	1.3% of the value of your investment per year. This is an estimate based on actual costs over the last year.	127 USD
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	12 USD
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this Product.	0 USD

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

This product should be considered a medium to long term investment. This means at least 5 years or more. You can sell your shares in the product on any Dealing Day as defined in the Prospectus, by using one of the methods described in the Prospectus. No exit fees will be charged. Please refer to the 'Composition of Costs' table for more information.

How can I complain?

If you have any complaints about the Company, the Product or the conduct of the PRIIP Manufacturer, complaints can be lodged via the following methods:

- 1) E-mail: compliance@pacificam.co.uk
- 2) Mail: The Head of Compliance, Pacific Asset Management, 1 Portland Place, London, W1B 1PN, UK

Please also refer to the “Complaints Procedure” section on the PRIIP Manufacturer’s website at www.pacificam.co.uk for more information.

Complaints regarding the conduct of the person(s) advising on or selling the product should be addressed to the relevant person(s) or to their organisation.
