Waystone Management Company (IE) Limited is authorised in Ireland and regulated by the CBI.

Pacific Capital Partners Limited is authorised in England and regulated by the Financial Conduct Authority (FCA).

**This Key Information Document is accurate as at 18 February 2026.**

## What is this product?

### Type

UCITS

### Term

The Company is an open-ended fund with no specified maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The PRIIPs Manufacturer, Waystone Management Company (IE) Limited, is not entitled to terminate the product unilaterally.

### Objectives

The investment objective of the Product is to seek to achieve long-term appreciation in the value of its assets. The Product will invest primarily in a portfolio of currency forwards, interest rate futures and bond futures, both on a long and short basis. The Investment Manager seeks to pursue a risk premia investment strategy in identifying suitable investments for the Product. Risk premia strategies are investment approaches that aim to exploit persistent anomalies in asset prices, capitalising on systematic risk-return relationships observed in financial markets. By identifying and investing in Carry, Value and Momentum factors, these strategies seek to capture excess returns over time. They operate on the premise that certain risk exposures can lead to superior performance, allowing investors to generate returns that are not solely reliant on traditional market movements. The Product seeks to achieve its investment objective primarily through the use of systematic trading models, which are computer-based models which select investments based on mathematical algorithms. The Product does not have a benchmark index. The Product's currency investments and exposures will be principally focused on "G10 currencies", being the ten most heavily traded currencies in the world and hence the most liquid. To provide liquidity and to cover the exposures generated through the use of Financial Derivative Instruments (FDI), the majority of the Product's assets may at any one time be invested in cash or money market instruments and other short-term debt obligations. The money market instruments and other short term debt obligations the Product may utilise may include, short term commercial paper, bankers' acceptances, government securities and certificates of deposit, securities issued by or on behalf of or guaranteed by the government of the U.S. or by other OECD sovereign governments or by their sub-divisions or agencies and securities issued by public corporations, local authorities, banks or other financial institutions or corporate issuers. They may also include shares in money market funds subject to the conditions and limits set out in the Central Bank UCITS Regulations. The Product is not constrained geographically. The Product will be primarily managed with a focus on OECD countries and

their investment grade sovereign debt but may invest in other jurisdictions or have net exposure of up to 10% (long or short) in debt securities rated below investment grade. The Product may invest in FDI for efficient portfolio management and for investment purposes. The Product may also invest up to 10% of its Net Asset Value in other collective investment schemes if the Investment Manager deems that this exposure would help the Product achieve its investment objective by giving the Product exposure to additional trading intellectual property, data or computational methods employed by other collective investment schemes that would complement the systematic trading models employed by the Investment Manager. The Product may not invest more than 20% of its net assets in securities listed or traded in, or issuers domiciled in, Emerging Markets. The Base Currency of the Product is USD. This Class is denominated in GBP. Non-Base Currency Share Classes are hedged. Income from investments in the Product is not distributed but will be retained in the Product. An investment in the Product is designed to be a medium to long-term investment of typically 3-5 years therefore investors should not expect to obtain short-term gains from such investment. The Product is suitable for investors who can afford to set aside the capital for the investment cycle and who seek a medium to high investment risk.

### Intended Retail Investor

This Product is intended for investors who understand the degree of risk, who can tolerate a medium to low level of volatility and who are able to bear any losses (which may equal the whole amount invested) that may result from an investment in the Product. The Product is designed to form part of a portfolio of investments.

### Important Information

- The Company is an investment company with variable capital incorporated in Ireland with registered number 553111 and established as an umbrella fund with segregated liability between sub-funds.
- The Company's Depository is Citi Depository Services Ireland Designated Activity Company.
- Further information about the Company, the Product and the different classes of shares (including a copy of the current Prospectus, the Supplement and most recent Report and Financial Statements) are available online at [www.pacificam.co.uk](http://www.pacificam.co.uk).
- Investors may switch shares in the Product for shares in other sub-funds of Pacific Capital UCITS Funds plc provided that they satisfy the criteria applicable to investments in the other sub-fund(s). Further information on switching is contained in the Prospectus and the Supplement.

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Due to effects of unusual market conditions, other risks could be triggered, refer to “Risk Considerations” in the Prospectus and Supplement.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the benchmark between September 2024 and October 2025.

The moderate scenario occurred for an investment in the benchmark between July 2016 and July 2021.

The favourable scenario occurred for an investment in the benchmark between December 2015 and December 2020.

Recommended holding period: 5 years.

Example Investment: GBP 10,000.

Scenarios		If you exit after 1 year	If you exit after 5 years
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	7,300 GBP	7,050 GBP
	Average return each year	-27.03 %	-6.76 %
<b>Unfavourable</b>	<b>What you might get back after costs</b>	8,730 GBP	9,680 GBP
	Average return each year	-12.68 %	-0.65 %
<b>Moderate</b>	<b>What you might get back after costs</b>	10,750 GBP	14,390 GBP
	Average return each year	7.51 %	7.55 %
<b>Favourable</b>	<b>What you might get back after costs</b>	12,520 GBP	17,650 GBP
	Average return each year	25.21 %	12.03 %

## What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company has no obligation to pay out since the Company design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depository. Should the Company default, the depository would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	56 GBP	407 GBP
Annual cost impact (*)	0.6%	0.6% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 8.2% before costs and 7.5% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

## Composition of costs

<b>One-off costs upon entry or exit</b>		<b>If you exit after 1 year</b>
Entry costs	0% of the amount you pay in when entering this investment	0 GBP
Exit costs	We do not charge an exit fee for this Product.	0 GBP
<b>Ongoing costs [taken each year]</b>		
Management fees and other administrative or operating costs	0.4% of the value of your investment per year. This is an estimate based on actual costs over the last year.	40 GBP
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	16 GBP
<b>Incidental costs taken under specific conditions</b>		
Performance fees	There is no performance fee for this Product.	0 GBP

## How long should I hold it and can I take money out early?

### Recommended holding period: 5 years

This Product should be considered a medium to long term investment. This means at least 5 years or more. You can sell your shares in the product on any Dealing Day as defined in the Prospectus, by using one of the methods described in the Prospectus. No exit fees will be charged. Please refer to the 'Composition of Costs' table for more information.

## How can I complain?

You can send your complaint to the Management Company at 35 Shelbourne Rd, Ballsbridge, IE - Dublin, D04 A4E0, Ireland or by e-mail to [complianceeurope@waystone.com](mailto:complianceeurope@waystone.com).

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
