Waystone Management Company (IE) Limited is authorised in Ireland and regulated by the CBI.

Pacific Capital Partners Limited is authorised in England and regulated by the Financial Conduct Authority.

**This Key Information Document is accurate as at 1 January 2024.**

## What is this product?

### Type

UCITS

### Term

The Company is an open-ended fund with no specified maturity date. Subject to the liquidation, dissolution and termination rights of the board of the Fund as set forth in the Fund prospectus, the Fund cannot be automatically terminated. The PRIIPs Manufacturer, Waystone Management Company (IE) Limited, is not entitled to terminate the product unilaterally.

### Objectives

The Product's investment objective is to deliver positive returns over a rolling 12-month period. The Product is considered to be actively managed, which means that the Investment Manager is not constrained by any index or benchmark in the selection of investments. The performance of this GBP Share Class is measured against the Sterling Overnight Interbank Average Rate (SONIA) for the purposes of the calculation of performance fees for the Class. The Product does not intend to track this index. This index was chosen because it represents the minimum level of return that is expected from the Product over the stated time period. The majority of the Product will not be components of the index. The Product will invest directly in a combination of debt securities and currencies. The Product will also have indirect exposure to currencies, interest rates and inflation rates through Financial Derivative Instruments (FDI). Approximately 10% of the Product's investment exposure will be through direct investment in debt securities and currencies; the remaining 90% will be obtained through investment in FDI. The types of debt securities in which the Product may invest will include fixed income securities which may be fixed and or floating rate, including sovereign and central bank debt; debt securities issued by government agencies, government sponsored enterprises; supranational agencies and public international bodies; and government guaranteed bonds of the highest credit quality (broadly equivalent to AAA) issued by banks in the U. S. and other OECD countries. The Product's currency investments and exposures will be principally focused on 'G10 currencies', being the ten most heavily traded currencies in the world and hence the most liquid. The securities the Product will invest in will primarily be listed, traded or dealt in on Recognised Markets. The Product is not constrained geographically and will focus primarily on OECD countries and their investment grade sovereign

debt; but may invest in other jurisdictions or have net exposure of up to 10% (long or short) in debt securities rated below investment grade. The Product may use exchange traded and OTC derivatives for both efficient portfolio management and investment purposes. Derivative instruments, including futures, forwards, options, contracts for difference and swap contracts will be used to express the Investment Manager's views as to the likely direction which will be taken by interest rates or foreign currency exchange rates. Where the Investment Manager wants to hedge a specific risk, it may use the same derivatives to achieve this outcome. The use of FDI's may result in leverage and performance may rise or fall more than it would have done otherwise, reflecting such additional exposure. Under normal market conditions, the Product envisages employing leverage of between 2,000% and 12,000% of the Net Asset Value of the Product depending on the instrument types and maturity which may be held by the Product. Income from the Product's investments will be reinvested in the Product. Other share classes may distribute income.

### Intended Retail Investor

This Product is intended for investors who understand the degree of risk, who can tolerate a medium to low level of volatility and who are able to bear any losses (which may equal the whole amount invested) that may result from an investment in the Product. The Product is designed to form part of a portfolio of investments.

### Important Information

- The Company is an investment company with variable capital incorporated in Ireland with registered number 553111 and established as an umbrella fund with segregated liability between sub-funds.
- The Company's Depositary is Citi Depositary Services Ireland Designated Activity Company.
- Further information about the Company, the Product and the different classes of shares (including a copy of the current Prospectus, the Supplement and most recent Report and Financial Statements) are available online at [www.pacificam.co.uk](http://www.pacificam.co.uk).
- Investors may switch shares in the Product for shares in other sub-funds of Pacific Capital UCITS Funds plc provided that they satisfy the criteria applicable to investments in the other sub-fund(s). Further information on switching is contained in the Prospectus and the Supplement.

## What are the risks and what could I get in return?

### Risk Indicator

The risk indicator assumes that you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.

We have classified this product as 3 out of 7, which is a medium-low risk class.

This rates the potential losses from future performance at a medium-low level, and poor market conditions are unlikely to impact our capacity to pay you.

Due to effects of unusual market conditions, other risks could be triggered, refer to “Risk Considerations” in the Prospectus and Supplement.

This product does not include any protection from future market performance so you could lose some or all of your investment.

If we are not able to pay you what is owed, you could lose your entire investment.

## Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product and a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

The unfavourable scenario occurred for an investment in the benchmark between September 2017 and September 2022.

The moderate scenario occurred for an investment in the benchmark between May 2015 and May 2020.

The favourable scenario occurred for an investment in the benchmark between December 2013 and December 2018.

Recommended holding period: 5 years.

Example Investment: GBP 10,000.

Scenarios		If you exit after 1 year	If you exit after 5 years
<b>Minimum</b>	<b>There is no minimum guaranteed return. You could lose some or all of your investment.</b>		
<b>Stress</b>	<b>What you might get back after costs</b>	7,010 GBP	7,000 GBP
	Average return each year	-29.87 %	-6.89 %
<b>Unfavourable</b>	<b>What you might get back after costs</b>	9,280 GBP	10,040 GBP
	Average return each year	-7.20 %	0.07 %
<b>Moderate</b>	<b>What you might get back after costs</b>	10,220 GBP	10,870 GBP
	Average return each year	2.18 %	1.68 %
<b>Favourable</b>	<b>What you might get back after costs</b>	11,150 GBP	11,580 GBP
	Average return each year	11.47 %	2.97 %

## What happens if Waystone Management Company (IE) Limited is unable to pay out?

The Management Company has no obligation to pay out since the Company design does not contemplate any such payment being made. You are not covered by any national compensation scheme. To protect you, the assets are held with a separate company, a depositary. Should the Company default, the depositary would liquidate the investments and distribute the proceeds to the investors. In the worst case, however, you could lose your entire investment.

## What are the costs?

**The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.**

### Costs over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest and how long you hold the product. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year, you would get back the amount that you invested (0 % annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario.

- GBP 10,000 is invested.

	If you exit after 1 year	If you exit after 5 years
Total costs	151 GBP	846 GBP
Annual cost impact (*)	1.5%	1.5% each year

(\*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.2% before costs and 1.7% after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

### Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	0% of the amount you pay in when entering this investment	0 GBP
Exit costs	We do not charge an exit fee for this Product.	0 GBP
<b>Ongoing costs [taken each year]</b>		
Management fees and other administrative or operating costs	0.8% of the value of your investment per year. This is an estimate based on actual costs over the last year.	77 GBP
Transaction costs	0.7% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	74 GBP
<b>Incidental costs taken under specific conditions</b>		
Performance fees	There is no performance fee for this Product.	0 GBP

### **How long should I hold it and can I take money out early?**

#### **Recommended holding period: 5 years**

This Product should be considered a medium to long term investment. This means at least 5 years or more. You can sell your shares in the product on any Dealing Day as defined in the Prospectus, by using one of the methods described in the Prospectus. No exit fees will be charged. Please refer to the 'Composition of Costs' table for more information.

### **How can I complain?**

You can send your complaint to the Management Company at 35 Shelbourne Rd, Ballsbridge, IE - Dublin, D04 A4E0, Ireland or by e-mail to [complianceeurope@waystone.com](mailto:complianceeurope@waystone.com).

If you have a complaint about the person that advised you about this product, or who sold it to you, they will tell you where to complain.
