TARGET MARKET & DISTRIBUTION

The Fund is a non-complex UCITS fund, authorised in Ireland and regulated by the Central Bank of Ireland. The Fund is actively managed.

The Fund aims to provide capital growth over the long term primarily through investments which meet sustainable investment criteria. It attempts to limit the risk of capital loss in most market conditions by investing primarily in regulated funds. Exposure to equity markets will range from 20% to 60% of Net Asset Value and the remainder invested in fixed income and other asset classes.

Vulnerable Clients

Any client could find themselves in vulnerable circumstances at any time. Our aim is to ensure that vulnerable clients invested in our Funds continue to receive the same fair treatment and outcomes as other clients.

Investors are also advised to read the fund's prospectus which contains details on the objectives, investment strategies, risk, fees and expenses.

The firm has a well-established Product Approval Process and a Product Governance Committee (“PGC”) which supports and is responsible for the review and approval of new initiatives.

Teams and colleagues across the business will participate to research and analyse new initiatives to progress the development. A proposal will be submitted to the PGC for consideration. The Committee will have regard to a number of factors in determining whether to reject or approve the proposal, including (but not limited to):

- conflicts of interests and the potential impact on the firm and products/services;
- charging structures, ensuring this does not undermine return expectations and is appropriately transparent for the identified target market;
- proposed distribution strategy and target market; and
- compliance with regulatory requirements.

Annually, the PGC will review management information on the performance of the firm’s products/services, and where appropriate consider and instruct any remedial actions, if required.
