Fund manager commentary

In August the Fund outperformed the S&P 500 by 75bps with USD performance of 3.81% (Z-class, net total return) vs the S&P 500 (net total return) at 3.06%.

The Fund's performance was led by WisdomTree and SharkNinja. WisdomTree is a small-cap financials company providing a range of exchange traded products which is scaling rapidly as it enters the next leg of its journey as a global asset manager. SharkNinja, widely known for its air fryers, continues to make progress as it seeks to replicate its success in air fryers to its wider household appliances portfolio.

The largest detractors during the month were National Vision, which is an optical retail chain undergoing a turnaround, and Applied Materials which is central to the AI ecosystem.

In the short term, concerns over government yields have heightened over the summer whilst investors concurrently continue to assess the return profile of AI spend.
