## INTRODUCTION

The Pacific Asset Management (PAM) Core Growth Range consists of five highly diversified multi-asset class portfolios designed to meet a range of client investment objectives.

### About the Core Growth Portfolios

The range is fully diversified across: Asset Class, Geography, Currency and Factor. Each portfolio carefully blends a mix of five broad asset classes: Equities, Fixed income, Alternatives, Diversifying Assets and Cash. By adjusting this mix, our portfolios cater for a range of investment goals and risk appetites.

## MULTI-ASSET SOLUTIONS FOR VARYING RISK TOLERANCE

### CONSERVATIVE

The Conservative Portfolio aims to generate steady long term returns. This portfolio has a moderate growth profile whilst maintaining a cautious investment approach.

### BALANCED

The Balanced Portfolio allocates across all asset classes blending both defensive and growth focused assets. Investors in this category have a moderate tolerance for risk.

### ADVENTUROUS
