Pacific Coolabah Credit Alpha

GBP Z Accumulating (Hedged) | ISIN: IE0001DYJJZ9

A sub-fund of Pacific Capital UCITS Funds plc (“the Company”)

The Manager is Waystone Management Company (IE) Limited (the “Manager”)

The Investment Manager of the Fund is Pacific Capital Partners Limited (the “Investment Manager”)

The Sub-Investment Manager is Coolabah Capital Institutional Investments Pty Ltd (the “Sub-Investment Manager”)

Objectives and Policy

Objectives: The investment objective of the Fund is to achieve a return in excess of cash by investing primarily in global investment grade corporate debt securities and government or sovereign bonds, using derivatives where appropriate.

Investment Policy: The Fund will invest in bonds, fixed income instruments, and other debt instruments, including government bonds, local authority bonds, municipal bonds, covered bonds, along with bonds issued by government-sponsored enterprises and public international authorities. The Fund may also invest in corporate bonds.

The Fund is actively managed and has regard to certain interest rate benchmarks for the purposes of calculation of performance fees for certain share classes. However, the Benchmarks do not constitute an investment universe or target portfolio composition and the Fund's investment policy is not constrained by any Benchmark.

The Fund may invest in contingent convertible bonds (“CoCos”) hybrid securities, convertible bonds, preference shares and convertible preference shares. CoCos are instruments issued by the banking sector as additional tier-1 capital bonds that embed a call option to convert to equity based upon a pre-defined triggering event to support in their tier 1 capital requirements as needed. The aggregate exposure to CoCos will not exceed 20% of the NAV.

The Fund may invest in asset-backed securities ("ABS") and mortgage-backed securities ("MBS") (which may be non-agency and may be residential and/or commercial). The aggregate exposure to ABS is not expected to exceed 10% of the NAV. The Sub-Investment Manager will allocate to residential MBS based on its conservative assessment of the risks and comparative attractiveness of the asset class and will focus on higher quality investment grade securities.

The aggregate exposure to residential MBS issued by entities rated investment grade or above is not expected to exceed 30%. Some of the MBS may be collateralised mortgage obligations, however, these are not expected to exceed 5% of NAV.

The Fund employs active asset-allocation between cash and debt securities and may invest 100% in cash, cash equivalents and money market funds as a defensive measure.

The Fund's investment strategy may involve using repurchase agreements, reverse-repurchase agreements and securities lending transactions in accordance with the requirements of the Central Bank. The Fund may invest up to 10% of NAV in collective investment schemes, including ETFs where such investment provides efficient or cost-effective exposure.

The Fund may invest in financial derivative instruments ("FDI") for efficient portfolio management, including the hedging of risk and for investment purposes. Such FDI may be entered into over the counter or traded on Recognised Markets worldwide. The use of FDI can result in increased leverage and the Fund envisages employing leverage of between 200% and 700% of NAV.

The Fund uses a “bottom-up” analysis and seeks to identify bonds which offer a higher credit spread than the management team believe to be commensurate with the amount of risk attached to the position.

The Fund is not constrained geographically and will focus on developed markets, liquid, investment grade credit but may invest in other jurisdictions. The Fund may invest in sub-investment grade bonds which will not exceed 15% of NAV. The Base Currency of the Fund is USD. This Class is denominated in GBP. Non-Base Currency Share Classes are hedged. Income from investments in the Fund is not distributed but will be retained in the Fund. The Company is an open-ended fund with no specified maturity date.

An investment in the Fund is designed to be a short to medium-term investment of typically 3 to 5 years therefore investors should not expect to obtain short-term gains from such investment. The Fund is suitable for investors who can afford to set aside their invested capital for the investment cycle and who seek a low to medium investment risk.

Risk and Reward Profile

Why is the Fund in this category? The lowest category does not mean 'risk free'. The Fund's risk category shown is based on historical data and is not guaranteed. Furthermore, it may not be a reliable indication of the future risk profile of the Fund.

The Fund is categorised as a 3 because it is invested in financial markets and uses techniques and instruments which are subject to some level of variation which may result in gains and losses.

Additional risks that may have a significant effect on Fund performance includes:

- **Contingent Convertible Bonds** - The Fund may invest significantly in CoCos. The performance of such bonds is dependent on a number of factors including interest rates, credit and equity performance, and the correlations between factors.
- **Limited Operating History / No reliance on Past Performance** - The Fund has no operating history upon which prospective investors can evaluate its likely performance. The past investment performance of the Investment Manager should not be construed as an indication of future results. The risk category of the Fund is not fixed and may well change over time.
- **Credit Risk** - The assets of the Fund are exposed to the credit risk or bankruptcy of counterparties, dealers, exchanges and those that act on behalf of the Fund or hold assets on behalf of the Fund.

The value of the Fund's investments and the shares in the Fund may rise as well as fall and an investor may not get back the amount s/he invests. Any investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. The risk category of the Fund is not fixed and may well change over time. A full list of risks applicable to this Fund can be found in the Prospectus and Supplement. See under "Practical Information" for how to obtain a copy.
