A sub-fund of Pacific Capital UCITS Funds plc

The Manager is Waystone Management Company (IE) Limited ("the Manager")

The Investment Manager of the Fund is Pacific Capital Partners Limited (the "Investment Manager")

The Sub-Investment Manager is North of South Capital LLP (the "Sub-Investment Manager")

Objectives and Policy

Investment Objective: The investment objective of the Fund is to produce a consistent level of income through investment in high yielding equities while also growing the net asset value.

Investment Policy: The Fund seeks to achieve its investment objective through investing primarily in equity and equity related securities (such as warrants and rights issues) of companies listed on or dealt in Recognised Markets in Emerging Markets or which are listed on or dealt in Recognised Markets outside of the Emerging Markets but which generate the bulk of their earnings in Emerging Markets. The Fund shall seek to invest in equity securities which offer higher yield through dividends than would be available through investment in fixed income instruments in their respective local bond markets.

The term "Emerging Markets" is understood in the context of this Fund to refer to the markets of countries that are in the process of developing into modern industrialised states and thus display a high degree of potential but also entail a greater degree of risk. It shall include, but is not limited to countries included from time to time in the S&P / IFC Emerging Markets Investible Composite Index or in the MSCI Emerging Markets Index, each of which is a free floating adjusted market index designed to measure the performance of the constituent securities in global emerging markets.

The Fund is actively managed and does not intend to track any benchmark nor is it constrained by any index.

The Fund may also invest up to 10% of its Net Asset Value in China A Shares via Stock Connect.

The investment team combines top-down analysis and bottom up company research in order to build a portfolio of liquid and diversified holdings. The Fund's investments will have no industrial or sectoral focus.

The Fund may use derivatives for investment purposes and / or efficient portfolio management purposes. Further information in respect of the Fund's use of derivatives is set out in the Derivatives section of the Fund's Supplement.

The Fund will only take long positions for investment purposes. The maximum anticipated long exposure of the Fund is 115% of its Net Asset Value (100% direct investment and 15% leveraged exposure). The Fund may take short exposures for hedging purposes only and the maximum anticipated exposure in this regard is 20% of its Net Asset Value.

The Fund may enter in to Repurchase Agreements and Reverse Repurchase Agreements, and Stocklending Agreements for the purpose of efficient portfolio management.

The Base Currency of the Fund is US Dollar. This share is denominated in GBP.

Income from investments in the Fund is not distributed and will be retained in the Fund. Other share classes may not distribute income.

An investment in the Fund is designed for investors who are willing to invest for a medium to long term and who plan to stay invested for at least 7 years. Investors should be prepared to take on a relatively high level of risk of loss of their original capital in order to get higher potential return.

Investors are able to buy and sell shares in the Fund on any day (except Saturday or Sunday) on which banks are open in Ireland, the UK and the USA.

Risk and Reward Profile

Lower risk

Potentially lower reward

Higher risk

Potentially higher reward

The Fund is categorised as a 5 because it is invested in financial markets and uses techniques and instruments which are subject to some level of variation which may result in gains and losses.

Why is the Fund in this category? The lowest category does not mean 'risk free'. The Fund's risk category shown is based on historical data and is not guaranteed. Furthermore, it may not be a reliable indication of the future risk profile of the Fund

Additional risks that may have a significant effect on Fund performance includes:

- **Emerging Market Risk** – Emerging markets by their nature are more volatile and prone to sporadic and unpredictable asset returns. This is caused by varying macro-economic factors such as interest rate risk, liquidity risk, and political risks.
- **Counterparty Risk** – A counterparty to a non-exchange financial derivative contract may not be able to meet its payment obligations in the event of default.
- **Liquidity Risk** – The Depositary may appoint sub-custodians in certain jurisdictions to hold assets of the Fund. Custody services in certain emerging markets jurisdictions remain undeveloped, and accordingly there are transaction and custody risks of dealing in certain emerging markets jurisdictions.

The value of the Fund's investments and the shares in the Fund may rise as well as fall and an investor may not get back the amount s/he invests. Any investment in the Fund should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. The risk category of the Fund is not fixed and may well change over time. A full list of risks applicable to this Fund can be found in the Prospectus and Supplement. See under "Practical Information" for how to obtain a copy.
