IMPORTANT INFORMATION ON CHARGES

The Ongoing Charges Figure (OCF) is an estimate based on projected expenses and may vary from year to year. An estimate is used in order to provide the figure that will most likely be charged. For more information about charges please see the Key Investor Information Document (KIID) and "Fees and Expenses" of the Fund's Prospectus and Supplement. *Included in the OCF.

Pacific Asset Management

is proud to be a signatory of:

A commitment to responsible investing

As a signatory to the UN PRI Principles for Responsible Investment, Pacific Asset Management has publicly stated our support for the better understanding of the investment implications of environmental, social and governance (ESG) factors.

As a business we are committed to constantly strive to be a more responsible firm both in how we operate and how we manage our clients' investments.

Investment objective

The Fund's investment objective is to provide capital growth over the long term primarily through investments which meet sustainable investment criteria. It attempts to limit the risk of capital loss in most market conditions by investing primarily in regulated funds.

Portfolio sustainability analysis

All underlying investment managers in the Pacific Multi-Asset Sustainable Fund are signatories to the UN PRI Principles for Responsible Investment.

% of portfolio covered by a Global Sustainable Investment Alliance (GSIA) target*

The GSIA is globally recognised framework which classifies the universe of sustainable products against a range of sustainable targets. This allows us to define the nature of our sustainable implementation in the following formats and calculate the % of the portfolio covered by a sustainable target.

UNDERSTANDING THE CARBON IMPACTS OF INVESTING SUSTAINABLY

SUSTAINABLE BALANCED
£1 MILLION INVESTED EQUATES TO*

In this way, we not only take full responsibility for the holdings within our portfolios but also factor the sustainability exposure that they deliver.

We acknowledge that such outcomes are not always easy to understand, so we contextualise this data through real-world examples so that our investors can fully appreciate the lower carbon-exposure of their portfolio.

*Savings measured in tonnes of CO2e per £1M invested based on Scope 1 & 2 financed emissions calculated using PCAF (Partnership for Carbon Accounting Financials) methodology. Data obtained when comparing Pacific's portfolio versus an equivalent portfolio from an asset allocation perspective populated with benchmark holdings. When utilising this measure, we do not cover the entire portfolio (government bonds, cash, and holdings without available emissions data are excluded from the calculation). Please contact the Pacific team to determine the estimated data coverage - (context datapoints are only presented if data coverage is above 60% of a given product's NAV). Data on car equivalents, tonnes of waste recycled, and other environmental equivalencies are based on averages and assumptions retrieved from the US Environment Protection Agency (Greenhouse Gas Equivalencies Calculator | US EPA) and may not represent all possible cases. Pacific's investments are associated with these emissions savings through lower-carbon portfolio construction compared to the benchmark; however, these figures represent attributed emissions based on proportional ownership and do not constitute verified emissions reductions or climate impact additionality. For illustrative purposes only.

WHAT DOES SUSTAINABLE INVESTING MEAN TO PAM?

Sustainable investing is a catch-all term for investing in a way that accounts for being socially responsible and investing ethically while also seeking returns. **At PAM** we use the term sustainable investing to capture the various methods of incorporating concerns around Environmental, Social and Governance (ESG) issues into our investment decision making processes.

A commitment to responsible investing

As a signatory to the UN PRI Principles for Responsible Investment, Pacific Asset Management has publicly stated our support for the better understanding of the investment implications of ESG factors. As a business we are committed to constantly strive to be a more responsible firm both in how we operate and how we manage our clients' investments.
